

## REVIEW OF MARKETS

### FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New York, Sept. 26.—The stock market was more feverish and irregular to-day than for months. The movement of prices was very wide and the dealings were on a large scale. The rally which set in the first of the week seemed to have culminated during the morning session, with the result that prices dropped back and the market fell into dullness at about last night's level. Northern Pacific was singled out as the special object of attack and, although there were other stocks which covered a wide range on the down grade, Northern Pacific fell farthest below last night's level of the railroad group. The selling of Northern Pacific was supplemented by pressure against Missouri Pacific. The rail was successful in dislodging stop loss orders and the whole market fell away with some violence. The nervous condition of the bears was strikingly shown in the violent reaction of the last half hour of the market when rumor of dis-orderly haste. Some violent recoveries were the consequence. Reading first preferred rallying 3/4 on wide jumps and New Jersey Central 3/4. The market closed considerably excited and strong, with a large number of stocks showing net gains. The continued weakness of sterling exchange begins to arouse the conjecture again as to whether relief to the money market is to be looked for by gold imports.

The bond market was dull and continued irregular. Total sales par value \$1,030,000. United States new 4's advanced 1/2, and all other issues 1/4 per cent in the bid price. Total sales of stocks to-day were 321,700 shares.

### The Cotton Markets.

**NEW YORK COTTON MARKETS.**  
 New York, Sept. 26.—All was con- fusion and uncertainty in local cotton speculative circles to-day. The market started easy in tone with prices un- changed to 8 points lower and continued to shrink steadily, following the call under brisk liquidation of long cotton purchased last night. The selling was impelled by a sudden and pronounced decline in the Liverpool market. Soon after midday the market took a turn for the better. On the advance the foreign, Southern and Wall street con- tingents came to the front as moderate buyers of the winter months, while room shorts heavily covered. Thorough- out the day there was clearly mani- fested a feeling of distrust with a goodly number of traders actually with- drawing from the market where oppor- tunity afforded until some new devel- opments of importance came to light. In the last half hour a flurry of light covering carried prices to above the close of yesterday. The market closed firm with prices net 4 to 12 points higher.
